FRIDAY, APRIL 22. 1743.

Brunswick, April 18.

OUR most Serene Duke enjoys perfect Health at Wolfenbuttle, as do all his august Family. He applies himself without Relaxation to Affairs of State, and to whatever contribute to the Ease or Welfare of his Subjects. His Serene Highness is particularly well pleased with the great Pro-

fits made in the Manufactures set up in his Country. He gives a very favourable Reception to such Foreigners as either propose to improve these, or to set up new ones; which draws a Concourse of the most industrious People from all Parts into his Dominions. In the beginning of the Month of May the Ducal Family propose to retire to Salzthal, in order to pass the Summer here. The very unseasonable Weather we have had here, has occasion'd a prodigious Sickness, insomuch that many poor Families there were more down than up; but with all this, the Mortality, God be thanked, has not been great. The famous M. Vilmording, the greatest Physician in this Part of the World, died here on the 15th, after a short Illness; he was equally beloved and admired by all who knew him. His Friends press'd him to make so many Visits during this sickly Season; but his constant Answer was, Why should I not expose my Life for the Safety of my Country? And thus it may be truly said that he lost his Life in the Publick Service.

Hamburg, April 23. Our Letters from Sweden and Denmark are missing by the last Post; but according to Letters from Petersburg, it seems as if the War was likely to be carried on with greater Heat than ever. With this View, the Czarina has written to General Keith to acquaint the Swedish Plenipotentiaries, That as on the one Hand she was very desirous of making Peace upon equitable Terms, so on the other, she was very far from fearing any Resources the Swedes might be able to find in Foreign Confederacies; that if, notwithstanding all the Offers that had been made them, they were resolv'd to come to Extremities, they had nothing more to do than to break off the Conferences whenever they thought fit, and appeal to the Sword. Our Politicians pretend to have discovered the Secret of the late Treaty between the King of Prussia and the Czarina. They think, that it regards the military Preparations of the King of Denmark, and believe, that it is in Consequence of this Treaty, his Prussian Majesty has assembled a Corps of Troops on the Frontiers of Holstein; because the Orders for the March of these Troops were issued immediately after an Audience given to the Ambassador of her Czarist Majesty. The Duke of Holstein Uten, Bishop of Lubeck, is just arriv'd here, but we do not believe he will remain in this City long, since a magnificent Equipage has been preparing for him some time; from whence we conclude, he is shortly to take some Journey of Importance.

Paris, April 23. The Talk of Peace, which was very current here, is now quite over. Our last Advices from Germany say, That several of the little German States, as well of the Circle of Swabia as of the Upper Rhine, had sent to demand the Earl of Stair's Protection; and that there was Reason to fear, that the Dyet of Frankfurt would come to some Resolution in favour of the Auxiliaries. Abundance of People are still sick of the new Distemper, and amongst the rest, the eldest Princess of France. It is generally believed that Marshal Noailles will open the Campaign with some Siege of Importance, in order to force the English and Austrians to repass the Rhine.

**The most Fam'd and long Experienced Chymical Drops**  
**For ASTHMA and CONSUMPTIONS,**  
*That have been Sold so many Years, and with such uncommon Success and Benefit to the Publick, by Mr. Parry, and his Predecessors, in Board-Head-Court, Fleet-street; and, since Mr. Parry's Decease, have been and still are sold in London only by Mr. Read for 3 s. 6 d. a Vial, at his House in White-Fryars. (N.B. You turn in just by the Sun Tavern in Fleet-street, and it's the great Corner House in White-Fryars; JAMES READ, in great Letters, is wrote over the Door.)*  
They are a most incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA of the longest standing: And of all Sorts of CONSUMPTIONS, even when is far advanced, as not to be cured by any other Medicine in the World.

**FOR their Virtues vastly exceed any**  
Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.  
They instantly relieve the Patient in the most suffocating Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest standing.  
They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when feared. They are also exceeding nutritive and strengthening to Persons of weakly Constitution, and have no other sensible Operation than to occasion a gentle Breathing in the Night.  
And by Parry of Reasoning this most excellent Medicine is (and is well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Chin-Cough, and Hooping-Cough in Children, having cured Thousands; is so agreeable, and so few Drops to a Dose, that Children take them with Pleasure, and without any Confinement.  
In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and therefore despite the faint Efforts of all Counterfeits or Imitators) for the Ailments above-mentioned, and allowed to be so by the most judicious amongst the Learned in Physick; and are made by the largest Experience in private Practice, and are made Publick for Common Good.  
N. B. They are sent to many Parts of the World, particularly to his Majesty's Colonies in the West Indies, &c.  
Good Allowance is given by the Dozen to sell them again. They will keep good many Years, well cork'd, in any Climate.
